A New Method for
Laying Carpets!
NEATER CHEAPER AND FAR MORE CONVENIENT THAN TACKS.
PATENT
CARPET HOOKS!
PATENTED March 22, 1859. They are bright as Silver and not Liable to Rust. Price, Fifteen Cents per Gross. It is guaranteed of these Carpet Hooks—
That with them Carpets can be taken up and relaid in ten minutes without hard work and *no extra preparation* of Carpets required.
That they will not injure the Carpet more than Tacks.
That they will hold the Carpet closely and firmly to the floor board.
That ladies can use them without difficulty.
That once down they can remain down without inconvenience.
A neat Steel Gauge and Awl which will enable any one to insert the Hooks expeditiously and at regular distances from the wall may be had with the Hooks for *two cents* each.
Hooks Fifteen Cents per Gross. A liberal discount to the trade. Terms cash. Put up in neat Boxes of Eight Dozen Gross and in cases containing 10 boxes.
These Hooks received a *Diploma* at the last New York State Fair.
Those who try them say—"We would not use Tacks if they were furnished free." The following is from the *Rochester Democrat and Advertiser*:
Spencer's Patent Carpet Hooks—These neat little articles ought to go into general use. We have used them for two years past and find they are all they are represented to be. They are cheaper than tacks in the first instance and will last an indefinite period of time. In ten minutes an ordinary sized dining room carpet can be put down after the hooks are placed and in less time than it can be taken up. The hooks do not need to be removed with the carpet, but remain permanently fixed in their places.
A trial of these will satisfy all that they need but to be known to supersede all other methods for laying carpets.

AND testimonials new and almost without number might be given from ladies and gentlemen in all grades of society whose united testimony none could resist that Prof Wood's Hair Restorative will restore the bald and gray and preserve the hair of the youth to old age in all its youthful beauty.

BATTLE CREEK, Mich Dec 1 1858
Prof Wood—Thee wilt please accept a line to inform thee that the hair on my head all fell off over twenty years ago, caused by a complicated chronic disease attended with an eruption on the head. A continual course of suffering through life having reduced me to a state of dependence. I have not been able to obtain stuff for caps ... I have been obliged to pay ... almost the last cent I had on earth for a two dollar bottle of thy Hair Restorative about the first of August last. I have faithfully followed the directions and the bald spot is now covered with hair thick and black ... I feel ... confident that another bottle would restore it entirely and permanently ...
the widow and the fatherless.
Thy friend SUSANNAH KIRBY

LIGONIER Noble Co Indiana, Feb 5 1859
Prof O J Wood—Dear Sir In the latter part of the year 1852 while attending the State and National Law School of the State of New York my hair from a cause unknown to me commenced falling off very rapidly so that in the short space of six months the whole upper part of my scalp was almost entirely bereft of its covering, and much of the remaining portion upon the side and back part of my head shortly after became gray so that you will not be surprised when I tell you that upon my return to the State of Indiana my more casual acquaintances were not so much at a loss to discover the cause of the change in my appearance as my more intimate acquaintances were to recognize me at all.
I at once made application to the most skillful physicians in the country, but receiving no assurance from them that my hair could again be restored I was forced to become reconciled to my fate until fortunately in the latter part of the year 1857 your Restorative was recommended to me by a druggist as being the most reliable Hair Restorative in use. I tried one bottle, and found to my great satisfaction that it was producing the desired effect. Since that time I have used ... dollars worth of your Restorative and as a result have a rich coat of very soft black hair which no money can buy.
As a mark of my gratitude for your labor and skill in the production of so wonderful an article I have recommended its use to many of my friends and acquaintances who I am happy to inform you, are using it with like effect.
Very respectfully yours A M LATTA,
Attorney and Counsellor at Law
The Restorative is put up in bottles of three sizes viz large medium and small. The small holds ½ a pint and retails for one dollar per bottle; the medium holds at least twenty per cent more in proportion than the small, retails for two dollars per bottle, the large holds a quart, 40 per cent more in proportion, and retails for three dollars per bottle.

Greatest Improvement of the Age.
The Good Samaritan!
VENTILATED OVEN,
COOKING STOVE!
We are sole AGENTS for BANGOR and vicinity for the celebrated Cooking Stove
GOOD SAMARITAN.
THIS STOVE was patented by Messrs Rathbone & Co of Albany July 19 1859 and although but little more than a year has expired since it was first operated, its many wonderful feats in cooking have already placed it far in advance of any other Stove which has as yet been offered to a discriminating public. We claim for the Good Samaritan, that its economy of fuel, its simplicity of arrangement and real practical utility of the conveniences which surround it have placed it far in advance of any stove yet offered to the world. We will name a few of the advantages which it possesses over any other stove as well as some of the conveniences which attend it.
1 It has greater weight of castings, the bare stove weighing from 400 to 450 pounds
2 Greater capacity for baking. It has a very large Oven and also conveniences for baking on the top of the stove. It has also a large front roaster for baking bread pies &c or roasting meat and this without danger of contaminating with the same taste the finest delicacies being baked in the oven of the stove, an advantage which no other stove using the roaster possesses.
3 Its perfect control of heat. The Good Samaritan has a treble draught arrangement which enables the operator to use as little or great a fire as he chooses. The advantage which this arrangement gives over any other economist of fuel is, that while a fire may be started in the cold stove in from one third to one half less time, the operator can, after his fire is once started, lessen the draught as much as he pleases even to closing it entirely—thus giving him perfect control of the heat.
4 It has a soap stone fire back which will never burn out and consequently will not need replacing. Soap-stone is used very extensively as a lining to coal stoves as it is well established that nothing else will stand the effect of intense heat for so great a length of time.
Its accommodations for broiling are perfect and unequalled. It has a splendid arrangement for broiling on the hearth giving a perfect draught through, under and around the gridiron into the flues of the stove keeping the coals alive and carrying off all smoke and gases arising from the food—It will also broil very nicely upon the top without the smoke entering the room. This is accomplished by closing the draught, and can only be effected by a perfectly air tight stove.
6 Its arrangement for the ventilation of the oven cannot be excelled. It is effected by holes in the front door of the stove through which the fresh air passes striking against the front plate of the fire chamber (thus becoming heated before entering the oven) then through the ... oven of the stove where it ... from the food which will naturally rise to the top over the front oven plate behind the fire back into the fire-chamber where they are consumed (thus adding fuel for combustion) and also to the perfect ... of the stove.
7 The Good Samaritan has, in a single year, proved itself to be the most economical as well as the most efficient stove in the world. The great Ivan ... possesses of being able to do a greater variety of cooking at once with greater rapidity of operation is not to be lightly passed over. None who have ever examined it closely can doubt for an instant but that, with ordinary usage, it must last from 10 ... years. Then can base this belief on its great weight and the small quantity of fuel necessary to ... —for the less fuel consumed the longer a stove will wear.
In it, it possesses all the attributes and qualities of a first class stove in the highest perfection ... no longer an experiment, but an established fact. That it has no equal we are fully prepared to demonstrate to all impartial persons and solicit all wanting or wishing to purchase or not to call and see the stove and be convinced of the truth of these statements.
We desire every house-keeper in Penobscot County to call and we think they will be fully repaid by examining the merits of this wonder of the age.
Descriptive pamphlets and all information will be cheerfully furnished by us at our store

A CARD.
THE AMERICAN WATCH COMPANY, of Waltham, Mass begs to call the attention of the public to the following emphatic recommendation of Waltham Watches which has been politely given by the leading practical Watchmakers and Jewellers throughout the United States. The entire list of signatures to it even in the Eastern States is quite too long for publication in one advertisement, but the names presented will be recognized by those acquainted with the Trade in this vicinity as being in the highest degree respectable and influential. At their establishments may always be found the genuine watches of the Company's manufacture in great variety and at uniform prices.
Signatures from many cities and towns of New England not fully represented in this list will appear in a future advertisement.

To the Public.
THE UNDERSIGNED, practical Watchmakers and dealers in Watches, having bought and sold American Watches for a number of years past, and having dealt in all kinds of foreign watches for a much longer period of time, beg to state that they have never dealt in watches which as a class or in individual instances have been more satisfactory to themselves and customers, whether in respect of durability, beauty of finish, mathematically correct proportion, accurate compensation and adjustment or of fine time keeping results than those manufactured by the Waltham Company.

Proposals
For Materials for the Navy.
NAVY DEPARTMENT
Bureau of Construction, Equipment, &c.,
June 11 1861

SEALED PROPOSALS to furnish materials for the navy for the fiscal year ending 30th June 1862, will be received at this Bureau until 3 o'clock P M of the 9th day of July next. These proposals to be endorsed *Proposals for Materials for the Navy, Bureau of Construction &c* that they may be distinguished from other business letters.
The materials and articles embraced in the classes named are particularly described in printed schedules, any of which will be furnished to such as desire to offer, on application to the commandants of the respective yards or to the navy agent nearest thereto, and those of all the yards upon application at this Bureau. This Division into classes being for the convenience of dealers in each such portions will be furnished as are actually required for bids. The commandant and navy agent of each station will have a copy of the schedules of the other yards for examination only, from which it may be judged whether it will be desirable to make application for them.
Offers must be made for the whole of the class at any yard upon one of the printed schedules, or in strict conformity therewith, or they will not be considered.
The contract will be awarded to the lowest *bona fide* bidder who gives proper security for its fulfillment. The United States reserves the right to reject all the bids for any class if deemed exorbitant.
All articles must be of the very best quality to be delivered in good order and in suitable vessels and packages, as the case may be, at the expense and risk of the contractor and in all respects subject to the inspection, measurement, count, weight, &c of the yard where received and to the entire satisfaction of the commandant thereof.
Bidders are referred to the commandants of the respective yards for samples, instructions or particular description of the articles, and all things being equal preference will be given to articles of American manufacture.
Every offer as required by the law of August 10 1846 must be accompanied by a written guarantee the form of which is herewith given.
Those only whose offers may be accepted will be notified and the contract will be forwarded as soon thereafter as practicable, which they will be required to execute within ten days after its receipt at the post office or navy agency named by them.
Sureties in the full amount will be required to sign the contract and their responsibility certified to by a United States District Judge, United States district attorney, collector or navy agent. As additional security twenty per centum will be withheld from the amount of the bills until the contract shall have been completed and eighty per centum of each bill approved in triplicate by the commandants of the respective yards will be paid by the navy agent at the points of delivery within thirty days after its presentation to him.
It is stipulated in the contract that if default be made by the parties of the first part in delivering all or any of the articles mentioned ... the contractor and his sureties will forfeit and pay to the United States a sum ... Congress in that case provided approved March 3 1843.
Classes Nos 1, 2, 3, 4 to be delivered one fourth part on or before the 15th of May, one fourth part on or before the 1st of July, one fourth part on or before the 20th of September and the remaining ... on or before the 1st December 1862. Classes 3, 4 and ... the whole to be delivered by the 1st May 1862 ... one fourth part ... 1st of December next, one fourth part ... unless earlier required ... there are required ... the expiration of the fiscal year ...

Form of Offer
I ——— of ——— in the State of ——— hereby agree to furnish and deliver in the respective navy yards all the articles named in the classes hereunto annexed agreeably to the provisions of the schedules therefor and in conformity with the advertisement of the Bureau of Construction &c of June 11 1861 ... to ——— for signature ...

In whose Mouth is their Praise?

If any are guilty of moral treason, and worthy of the penalties attached to the "overt act", it is the editors of those Northern papers who, in the name of the democratic party which they misrepresent, oppose the government in its righteous war against the rebels who are aiming at the destruction of the Republic. These men are giving more aid and comfort to the enemies of the country than all the legion of armed men who have been brought to the attack of the national capital. But for the hope of northern aid given to the rebels by such papers as the New York Day Book, New Hampshire Standard, and Bangor Democrat the rebellion would die out of discouragement. Those traitorous sheets are all received and read throughout the South, and their editorials eagerly spread before the Southern people by the secession papers of that section. As an instance we have the following in reference to our own secession organ, in a rank rebel paper of Arkansas, the Weekly Courier, published at Washington in that State. It says:

'No one can fail to admire the intrepid boldness with which one of the Northern papers hold out against the fratricidal war waged by the Lincoln despot at Washington. They tower afar off amid the rock ribbed regions of the North like monuments of moral grandeur, unawed by the portentous mutterings of civil conflict, and unterrified by the threats of lawless mobs. We clip a few noble extracts from several Northern papers to show how fearlessly some of our gallant contemporaries brave the felon's halter to speak out their condemnation, in unmeasured bitterness, against the damnable usurpations of Abe Lincoln and his cowardly abettors in their attempt to manacle the proud limbs of Southern freemen. Far up in frigid Maine the editor of the Bangor Democrat thus fearlessly talks to the infuriated brutes around him.'

Then follows the "noble extract" which affords all the aid to the rebels that words possibly can.

The editor of this same Bangor Democrat, who furnishes such "noble extracts" for the aid and comfort of traitors, is the same man who heads a call for a Democratic State Convention" to be held in this city on the 14th of August next upon the express basis of opposition to the war—in other words upon the basis of demanding *that the government of the country shall lay down its arms and submit ignominiously to the rebels*. THAT is the position in which that editor stands as the leader of a knot of traitors to the country, embracing a portion only of the 60,000 men in Maine who voted for Breckinridge in the last Presidential campaign. They turn against their country because their *party* was defeated in that election—and are now aiding and comforting the most wicked and causeless rebellion which the world ever saw. They are the very men who denounced the old federalists without measure as traitors of the darkest dye for opposing the last war with England. Now they are guilty of ten thousand times the amount of that treason, in opposing as they do, a war by which alone the very existence of the Republic can be maintained. We can have no better evidence of their treason than Southern endorsements like that which we have quoted above. *Praise!* in whose mouth is their praise!

IMPRESSMENT IN NEW ORLEANS.—Mr. Russell, the correspondent of the London Times, referring to the reign of terror in New Orleans, says:

'But a painful and startling insight into the manner in which volunteers have been sometimes obtained has been afforded to me at New Orleans. In no country in the world have outrages on British subjects been so frequent and so wanton as in the States of America. They have been frequent perhaps because they have been generally attended with impunity. Englishmen however, will be still a little surprised to hear that within a few days British subjects living in New Orleans have been seized, knocked down, carried off from their labor at the wharf and the workshop and forced by violence to serve in the 'volunteer' ranks! These cases are not isolated. They are not in twos and threes, but in tens and twenties; they have not occurred stealthily or in by ways; they have taken place in the open day and in the streets of New Orleans. These men have been dragged along like felons, protesting in vain that they were British subjects. Fortunately their friends bethought them that there was still a British Consul in the city, who would protect his countrymen—English, Irish or Scotch. Mr Mure, after he heard of the reports and of the evidence made energetic representations to the authorities, who after some evasion, gave orders that the impressed 'volunteers' should be discharged, and the 'Tiger Rifles' and other companies were deprived of the thirty five British subjects whom they had taken from their usual avocations. The Mayor promises it shall not occur again. It is high time that such acts should be put a stop to, and that the mob of New Orleans should be taught to pay some regard to the usages of civilized nations. There are some strange laws here and elsewhere in reference to compulsory service on the part of foreigners which it would be well to inquire into, and Lord John Russell may be able to deal with them at a favorable opportunity. *As to any liberty of opinion or real freedom here, the boldest Southerner would not dare to say a shadow of either exists.*'

☞ A Savings Bank has been organized at Calais, and Geo Downes elected President, and Jos. A. Lee, Secretary and Treasurer.

We learn that a third Union flag has been raised at East Eden. Two by the oldest inhabitants, and the last by the ladies. Our correspondent sends a glowing account of the affair.—*Ellsworth Am*

The Celebration of the Fourth.

The impromptu celebration in this city was a very successful and interesting one, and appeared to give as much satisfaction to our people as a more labored and formal affair would have done.

The before breakfast "preliminaries" by the fantastic young gentlemen, got up, of course, on their own hook, were as absurd as usual, and we think a little more so. They represented the ubiquitous Beauregard and his lady riding out in his Southern made carriage, and attended by his servants and suite. It was decidedly a success.

The day was "ushered in" (to use a new phrase), by the ringing of bells and the firing of cannon, and the same observances were repeated at noon and at sunset—the flag of our country floating from every prominent building and point, and from the masts of the shipping in port.

At 9 o'clock a large and beautiful flag was raised on the Norombega Market building, in the presence of a large concourse of people, and with patriotic and eloquent remarks by Joseph Bartlett and Charles S. Crosby, Esqs., with spirit stirring music by the Bangor Cornet Band.

The principal exercises arranged for the occasion commenced at half past ten o'clock, but long before that time the great hall was densely packed, on the floor, in the galleries and on the terrace and platform. The hall was handsomely draped with the national colors, and decorated with evergreens.

The exercises as stated heretofore in the published programme, consisted of excellent music by the Bangor Cornet Band, prayer by Rev. C. C. Everett, reading the Declaration of Independence by F. A. Wilson, Esq., an Oration by Prof Harris, and the singing of the National Hymn 'America,' the "Star Spangled Banner" and the "Army Hymn" by the whole audience.

The prayer was an admirably terse and fervent invocation of Divine assistance for the cause of our country in this hour of darkness and trial, and for a blessing upon those who have gone forth to defend it.

The Declaration was well read, and its time-honored sentiments were heard by the people at this crisis of our country's history, with a fuller realization of their grand import and their never-dying truth.

The oration, which was mostly extemporaneous occupied over an hour in the delivery and was listened to with the most earnest attention and its sentiments frequently enthusiastically applauded. There was but one expression with regard to its merits—that it was a most admirable and noble production—fervent, eloquent and patriotic—stirring to their depths all the fountains of love of country and home, and of loyalty to our good and beneficent government. It embraced a complete epitome of our political system, and presented the true American idea of liberty and of Republican government. It is liberty and *justice*, said the speaker, upon which our government is founded according to the ideas and intentions of its founders—not liberty *without* justice.

The national idea of liberty is not and never can be properly founded as claimed at the South, upon the system of laying one man down in the mud and sitting upon him to raise another man. This is liberty at the expense of justice and ought not to be recognized or sustained in our national jurisdiction.

The speaker also dwelt with earnestness and eloquence upon the duty which every citizen owes to his country in sustaining its government, especially when it is one of his own choice—and the great fact that government itself is of divine appointment and necessary to the well being of man, was dwelt upon and enforced. In commenting upon the wicked and causeless rebellion by which our whole political system is threatened with destruction, the speaker was exceedingly severe in his remarks and withering was the rebuke bestowed upon those few disturbers among us who forget or assail their country's cause in this the hour of its peril. He quoted for all such with electrical effect upon the audience, the well known denunciation of the poet:

> Breathes there a man with soul so dead
> Who never to himself hath said,
> 'This is my own—my native land'
> Whose heart hath ne'er within him burned
> As home his footsteps he hath turned
> From wandering on a foreign strand!
> If such there breathe go mark him well
> For him no minstrel raptures swell,
> High though his titles, proud his name,
> Boundless his wealth as wish can claim—
> Despite those titles, power and pelf,
> The wretch concentred all in self,
> Living shall forfeit fair renown,
> And doubly dying, shall go down
> To the vile dust from whence he sprung,
> Unwept, unhonored and unsung.'

The oration was, as we have said, a most noble production, and there is a general desire that its author should furnish a copy for publication.

The oration and other exercises of the occasion were exceedingly applicable to the times, and were listened to with the greatest satisfaction by the audience. The whole affair conceived and executed as it was, with only a day's consideration, reflects much credit upon the Committee of Arrangements, which consisted of the following gentlemen:—Isaiah Stetson, Franklin Muzzy, David Bugbee, G. W. Merrill, J. Fenno, O. H. Ingalls, E. F. Duren, N. S. Harlow, S. Wilder, A. D. Manson.

In the afternoon a portion of our Home Guard, or Independent Volunteers under Capt Bugbee, turned out for street drill and parade, and excited much commendation for their soldierly bearing and for the good degree of skill which they have attained in military movements during the brief period which they have devoted to drill. In the evening they partook, with invited guests, of a handsomely served supper at the Penobscot Exchange.

The supper was given by the commander of the Volunteers, and was provided in the most elegant and bountiful style of that well known caterer, Mr. Woodard, the landlord of the Exchange. The Mayor and other invited guests were present, and with patriotic speeches, sentiments and songs, the hours passed blithely until near the noon of night.

There were a few street rows during the day, in which there was a little free fighting, but nobody was much hurt. Reckless driving by intoxicated men, however, was frequent, and several persons were run over and injured. On Harlow St., near East Market Square, Mr George W. Porter and his wife were both knocked down by a horse and carriage driven by one John Neal of Bucksport. They were both injured, although not very seriously. On West Market Square, Albert Brown of Levant, drove recklessly through the crowd, knocking down several persons and running over a son of Mr Barrows, living on Third Street, bruising him considerably. A son of Mr James M Davis, living on Fore Street, was also run over by two unknown persons, and had one of his legs broken above the knee. Neal and Brown were arrested by Mr Walker, and brought before the Police Court yesterday, where a fine for fast driving was imposed upon the former, amounting, with costs, to $14,13, and upon the latter a fine and costs amounting to $12,18.

A Southern Man's Views of the Cause of the Civil War

The subjoined brief communication derives an especial significance from its source. It is sent to us by a gentleman who has lived for many years at the South, and who, shuddering at the dreadful evils which a civil war is beginning to inflict on that part of the country, which he has chosen as his residence, is led to detest the institution which is the cause of so great a calamity. If we had received it from a northern man, we might have laid it aside as an expression of views adopted by the large majority of people here, but we print it as an example of what southern men are beginning to say.

'*To the Editors of the Evening Post*

Civil war is upon us. Two large armies stand opposed and ready for battle on the soil of Virginia. The cause is slavery. An evil disease in our system, increasing from its origin, introduced without law, maintained without right, an injury to the master, a grievous and cruel wrong to the slave, a weakness and a curse to the state, it now assumes the grave aspect of rebellion and civil war.

Can we consider the expense, the sufferings, the hatred and conflict, the infernal passions which it wrought to fury and to flame, and in which it has involved our nation, and not resolve on its extinction? Will there be found any great and righteous souls among our brethren standing forth to defend the monster which having drenched the land in fraternal blood will turn and consume its defenders and also cat s?

In the name of justice, of humanity, of the God of armies and nations, I call upon the American people to rise and destroy this foe to their harmony and peace, their union and national existence. If the true and terrible character of slavery stand not now clearly revealed, when will it be? By what gloomy signs on the earth or in the heavens, by what sad portents in human affairs or the experience of the human soul, shall we be taught the good from the evil, or hear in the muttering of the approaching thunder the rebukes of the Almighty?

Let me then, as a humble private citizen, express the hope that the President and his Cabinet, that the approaching Congress, that all wise and good men in the land, will labor in this great opportunity, to secure the extermination of slavery in the easiest and best manner from the soil of this republic. Let it never after a very limited time be recognized in the constitution of the country. I anticipate the time when men now living shall unite in the jubilee of universal freedom. Let the women of the southern states set this full in motion—achieve this greatest of victories.

OUR HOPE IS IN GOD.'

AN UNPATRIOTIC WIFE DISAPPOINTED.—A volunteer in the Second Ohio Brigade, who had been granted a few days furlough, prior to leaving for active service, returned to Camp Dennison on Thursday with his trigger finger wrapped up in a bandage. He related to the camp questions of his comrades concerning it that his wife bitterly opposed his desire to enlist for three years, and during his visit home she took a chisel and mallet, and while he was asleep chopped off the end of his finger, under the supposition that such mutilation would cause his rejection by the recruiting officer. Great was her vexation when he informed her kind and informed her that, as he was a drummer, it could not affect him—the soldier insists upon going, and his better half is supposed to be still in a state. We know his story to be true, says the Cincinnati Commercial.

THE BUILDERS OF THE GUN BOATS.—The following are the parties to whom the building of a gun boat each has been awarded by the Navy Department: Baltimore, John J. Abraham; Wilmington, Del., W. Thatcher; Philadelphia, John Symmes, Jacob Birely, and H. Lane & Stricker, New York, Jacob Westervelt, John English, Thomas Stack, per Simonson, F. & H. Pillow and Webb & Bell; East Haddam, F. & W. Goodspeed; Mystic, Maxson Fish & Co., Portland, Conn., G. Drayton & Sons; Boston, Paul Curtis, A. & G. Sampson, and Curtis & Tilden; Newburyport, J. W. Jackson, Jr, Thompson, G. W. Lawrence, Belfast, C. P. Carter; Portland, Joseph W. Dyer; Bath, Larabee & Allen; Kennebunk, N. W. Thompson.—The list of the parties to whom the building of the steam machinery for the gun boats has been awarded is as follows: Baltimore, Charles Reeler, 1; Chester, Pa., Iron Works, 1; Philadelphia, Merrick & Co., 1; Norris & Co., 2; New York, Novelty Works, 2; Allaire Works, 2; Morgan Works, 2; Newburg, Highland Iron Works, 1; Bridgeport, Pacific Iron Works, 1; Hartford, Woodruff & Black, 1; Boston, Harrison Loring, 2; Atlantic Works, 1.

STAGE NONSENSE.—We were speaking to a friend the other day respecting the merits of a 'celebrated tragedian,' when we had occasion to comment on the rant of the stage—the loud mouthings, the outrageous gestures, the furious rolling of the eyes, the stride, swords that rattle in the hilt, and all the 'pomp and circumstance' of modern drama. Fancy this style carried into real life. On being introduced to a lady, you would say, throwing yourself into a splendid attitude—'Most gracious madame on my knees I greet you,' impressively placing your right hand on your heart. To a debtor who will not pay—'Fraudulent knave, payest thou me not? By yonder sun that blazeth in the zenith, thou wilt I sue, and thou shalt see thy impious name flaming the streets on posters huge!' At dinner—'Now by my soul and all my highest hopes these beans are royal. Were I Jupiter, beans should grace each royal banquet. What ho! waiter, bring hither more beans.'

To your wife—'Madame, beware thou dost excite me not, else, being too hot with wrath I do myself some harm. A needle here, a button on my shirt, and see it instantly performed. Do thou nor leave the task to me.' To your butcher—'Thou ensanguined destroyer of bovines, send me some mutton and some beef, and mark you! let it be tenderer than love and sweeter than the bee's rare burden. I would dine to-day.' To a friend—'Excuse a rash intrusion on your grace, but hast thou in thy box a portion of that plant ranked by the botanist among the *genus nicotiana*?' or 'Most noble friend, wilt thou partake with me some strong libations?' Thou lookest dull to-day, it will cheer thy sinking heart.'—Reply—'Oh! noble soul! alas! not all the wine of Bacchanalian revels could ease this sorrow here, here, here!' [Left arm struck several times.] 'O what a fool and arrant knave am I, the very sport of fortune!' This is scarcely more ridiculous than three quarters of the nonsense on the stage.

We learn that some scoundrels, probably secessionists who have profited by the teachings of the Bangor Democrat, cut down the flag staff at North Bluehill one night last week. We hope they will be found out and punished.—*Ellsworth Am.*

LOCAL AND MAINE ITEMS

JOB WORK. We are prepared to execute job work of all kinds at remarkably low prices and in the neatest style.

☞ Copies of the Daily Whig—price three cents—for sale at our counting room.

☞ Our Carriers are not allowed to sell papers while on their routes.

**Subscriptions for a less time than three months 60 cents per month.

☞ The Kenduskeag Bathing Rooms will be open this evening from 7 till 10, and Sunday morning from 6½ till 10 o'clock.

☞ ENLISTMENT OF VOLUNTEERS. We would call attention to the advertisement in our columns for enlistments in the service of the country and for the protection of our civil institutions. The offer by the government is certainly very liberal—aside from the patriotism which fills the heart of every loyal citizen at a time like the present, it should command the services of any desirable number of first class able bodied men.

SERIOUS ACCIDENT TO A MEMBER OF THE SECOND REGIMENT. A letter received in town on Wednesday, by Charles Hayward, Esq., and dated Washington June 30th, mentions the following painful accident to William Babcock of Company G:

'This morning, about 3 o'clock, McKenny accidentally shot Babcock while they were on guard. The circumstances were these. The order was given as usual for the guard to load their pieces, and as I understand it, McKenny did not load his gun at, and in taking his gun from the stack he by mistake got some one's else gun that was loaded. They challenged each other on the post, which of course there was no occasion for doing and McKenny took up his piece as he supposed to snap his gun when it went off the ball hitting Babcock in the leg just above the knee, fracturing the bone so badly that it will become necessary to amputate his leg. His pulse have been so very low to day that the surgeons do not attempt to perform the operation until he rallied a little from the shock. It is considered very doubtful if he recovers. He belongs in Veazie and has a wife and three children.'

IN POLICE COURT yesterday, Ruth Brown of Brewer was sent to the House of Correction for 30 days as a common vagabond. Eliza Emery was sentenced to the same, but appealed to the Supreme Court.

☞ The Portland papers now call the Great Eastern a "magnificent humbug."

LOSS OF TWO BATH SHIPS. We learn from the Bath Times that the ship Lawson, Watts, of Bath, was burnt to the water's edge, at Loulon June 18th. The Lawson was 600 tons, built in Bath in 1853, owned by Capt. L. L. Watts of Hallowell, and Capt. Lewis Blackmer of Bath. Insured. She was from Puget's Sound with a cargo of spars for the French government.

Information has been received of the loss of ship F. F. Stringer Wood, of Bath. She foundered on the 27th April, three days out from Liverpool, bound to Madras, with coal and iron.—The officers and crew were taken off and carried to Rio. The Stringer was of 1300 tons, about five years old, and was owned by parties in Bath. Probably insured.

☞ The Aroostook Pioneer says there have been several cases of diphtheria in that region.

THORNDIKE, July 3, 1861.

Messrs. Wheeler & Lynde—

The citizens of Thorndike to-day raised a flag staff upwards of 100 feet high under the supervision of Capt. R. S. Rich and George Cilley, of Thorndike. Mr True Harmon immediately presented to the citizens a splendid American flag bearing 34 stars (cost $41) which was raised to the peak amid the cheers of about 300 of the citizens of this town, among whom were many ladies.

A thrilling and patriotic speech was made by Charles Whitney, Esq., which was received with loud and enthusiastic cheers by the audience.—The company then departed with 12 rousing cheers for the Union, the Star Spangled Banner, the patriotic donor of the flag, and the brave men who have gone forth to defend American liberty.

CORINTH CO. 6TH REGIMENT—*Election of Officers*. At an election of officers in the Corinth Company, 6th Regiment at Camp Preble, holden by the 1st inst. Maj. Gen. J. H. Butler presiding, Geo. Fuller was elected Captain in place of Capt Cyrus Brown resigned, and Geo. Mehenic, former Captain of the Dexter Co., Second Lieutenant in place of Geo. Fuller, promoted.

Capt Fuller is probably the youngest man holding the position of Captain in any Company, from being only 21.

☞ The Houlton company of volunteers Capt J. W. Freese, formerly of this city, arrived yesterday on the afternoon train of the Bangor, Milford and Oldtown Railroad. After marching through our streets, they were quartered for the night at the Arsenal barracks, and will proceed to Augusta by this morning's train, where they will be the first company for the Seventh Regiment. They number 108 strong, and are a fine looking body of men, equalling in size and appearance any company which has yet been raised, and have evidently been well drilled. The officers are as follows:

John W. Freese, Captain
Timothy Swan, 1st Lieut
Jos. G. Butler, 2d Lieut

While marching through our streets they elicited great admiration from our citizens, and were received with repeated cheers. They carried a beautiful American ensign, presented to the company at Houlton by Miss Lucy K. Page in behalf of the citizens.

☞ Yesterday was the warmest day of the season thus far, the mercury ranging above 90 in many places.

☞ In the Police Court yesterday Wm. Long, for an aggravated assault upon a man named Kelley, on the 4th of July, was ordered to recognize in the sum of $400 to appear at the August term. Committed.

BANGOR TROTTING PARK. A large company turned out on the Fourth to witness the race at the Trotting Park. The Band was in attendance and everybody had a good time generally. The following is the time table:

PORPTOON—GENTLEMEN'S DRIVING HORSES

Capt. Ames, b m from Rockland 3 01, 3 05 driven by Capt Ames.
Wm H Strickland, g g Prince Bangor 3 05, 2 53, driven by Wm H Strickland.
Capt. Hoxie, b g, Brewer, 3 05, 3 07 driven by S. F. Leighton.
Z M Welch, b m, Houlton 3 00, 3 12, driven by Welch.
Geo Batchelder's Penobscot Boy, Exeter, 3 10, 3 06 driven by P. A. Strickland.
Levi C. Titus, b. Hiram Drew, Boston Mass. 2 50, 3 10, driven by Levi C. Titus.
Michael Kelley's g Canada Chief, Bangor 3 12, 3 00 driven by M. Kelley.
Fred Crow, bk m Polly Orono 3 00, 3 21, driven by Fred Crow.
Aaron Babb, g g Highland Chief, Bangor 2 45, driven by W. H. Strickland.

After the above horses were driven, a splendid race took place between the Hiram Drew stallion and Geo Batchelder's stallion, Penobscot Boy. They trotted two heats—the first heat in 2 40, second heat 2 35, both horses coming to the score together.

AFTERNOON RACE

Judges—Albert G. Hunt, A. Downes, Levi C. Titus.

At 3½ o'clock the horses were called up. The Brewer Boy had the pole, and went to the half-mile pole in 1 20—Drew's horse in 1 19.—Brewer Boy won the heat in 2 40. Driven by S. Holden.

Second heat—A good start. Brewer Boy ahead at half mile pole in 1 21—Drew's horse well up. Brewer Boy won the heat in 2 41.—A claim of foul driving was made, but not allowed.

Third heat—Brewer Boy had the heat all his own way. Drew's horse had a change of drivers. Time to half mile pole, 1 21, mile 2 41.

SHOCKING MURDER. The Lewiston Journal of yesterday states that on Thursday evening a man who was known by the name of Joel Carlton, but whose real name is supposed to be Joel Carlton Pratt, murdered his wife in front of a house near the north end of Little River Bridge, by stabbing her with a knife in the left breast, killing her almost instantly. About four or five weeks since, Carlton married a young lady about 27 or 28 years of age, named Frank Powers.—He had been living with a family residing in a small house near Little River Bridge. On account of Carlton's cruelty to his wife, he was forbidden returning there. On the afternoon of the 4th Carlton and his wife were on the streets, and in the evening went to the house above named, where he was refused admittance, although his wife was invited to come in. The two men living in the house, then turned to go into the house leaving Carlton and his wife standing together—the former desiring the latter to go with him to the hotel, and the latter refusing—when suddenly they heard a blow, and a sharp cry from Mrs. C. "He has killed me." Turning round they saw Mrs C. fall, and Mr Carlton running with all his might up the hill towards the village. Going to Mrs C. they found her dead, having been stabbed through the heart with a knife six or eight inches in length. The knife was made out of an old file, and had a very rough edge.

An alarm was at once raised, and officers sent out in all directions, but up to yesterday forenoon Carlton was at large. He is supposed to be a son of one Pratt of Whitefield, who is now in Prison for murdering his wife.

TO HORSE OWNERS.

DR. SWEET'S INFALLIBLE LINIMENT FOR HORSES, is unrivalled by any, and in all cases of lameness arising from Sprains, Bruises or Wrenching its effect is magical and certain. Harness or Saddle Galls, Scratches, Mange, &c. it will also cure speedily. Spavin and Ringbone may be prevented and cured in their incipient stages, but confirmed cases are beyond the possibility of a radical cure. No case of the kind however, is so desperate or hopeless but it may be alleviated by this Liniment and its faithful application will always remove the Lameness, and enable the horse to travel with comparative ease. Every horse owner should have this remedy at hand, for its timely use at the first appearance of Lameness will effectually prevent those formidable diseases mentioned, to which all horses are liable, and which render so many otherwise valuable horses nearly worthless.

BOSTON, 5th

[Particulars of a great fire in East Boston on the 4th.] Flames first broke out in a rigger's a wooden building on Aspinwall's wharf, which with adjoining building, including a large store house for salt, was destroyed. Snelling's wharf covered with small buildings owned by boat-builders, caulkers, &c, was next swept clean. Edward Nickerson's wharf, covered with valuable buildings, received the full fury of the fiery element. All the buildings upon the wharf were leveled to the ground. Among these were a large brick and stone storehouse and the brick structure known as the salt refinery. The latter building was 200 feet long by 100 wide. The loss of property on this wharf must be over two hundred thousand dollars. The extensive foundry belonging to the East Boston Iron Company and situated upon their wharf was next destroyed. This structure had a front of 100 feet on Maverick street, and extended 400 or 400 feet back. It cost $100 000. All the buildings on this wharf were burnt. On Clinton's wharf all the outbuildings were destroyed, in addition to a large amount of lumber belonging to John Clark & Son. From this point the fire spread to the East Boston Dry Dock. The wharf of the dock together with the railway, melted away under the consuming fire with fearful rapidity. This property, which could not be worth less than one hundred and fifty thousand dollars, was almost wholly lost. Insured for fifteen thousand dollars.

The fire continued its fearful course up to the shipyard of Samuel Hall where it was stopped, burning out the whole square of the old Timber Dock Company, bounded by Maverick, Liverpool and Border streets, which was covered with small and cheap dwelling houses. At least two hundred families were rendered homeless. The houses upon the burnt area included all on Maverick street with several on Liverpool street. The brick building occupied by the Union Guards who have gone to the war as an armory, was destroyed. Seventy five dwelling houses, principally on Summer street, were destroyed.

The following is a list of vessels burnt:—bark Mystery, Boston; brigs Orelia, Henry Marsh ... Searsport, Fannie ... Field; schooners Quimbaro, E. A. Hawkins, Dashaway, M. A. McNeil. Pinlad ... all totally destroyed. Bark Edward Hill lost main and mizzenmast. A large number of vessels were towed into the stream and saved.

We have yet no estimate of the total loss.

WASHINGTON, July 4th

Gen Patterson has achieved another brilliant success. Information was received yesterday from Martinsburg that he entered and passed through there in the morning in pursuit of the enemy. The army was received with enthusiasm by the mass of the population, who are gratified by the protection given by the Government. This is the ... gloriously celebrated in Martinsburg.

The rebel force which Gen Patterson scattered on the 2d when he crossed the river, lost sixty killed and had many wounded. It rallied and presented front yesterday, but again retreated a distance of seven or eight miles, where they had been reinforced.

WASHINGTON, 5th

The Secretary of the Treasury's Report is ... The Secretary shows an aggregate of appropriations already made of $... and then proceeds to state that the additional ... for the fiscal year ending June 30th, 1862, including the deficiency ... of the appropriation of $6... to the service of the preceding year, will require additional appropriation for the civil list. For ... objects $831, ... for the Interior Department ..., for the War Department $18..., for Navy Department ..., in the aggregate $... 716,800 ... In addition to the ... up ... Treasury, it will be necessary to provide for the redemption of Treasury notes ... maturing to the amount of $12,..., ... for the payment of the interest on the public debt to be created during the year which, computed for an average of six months may be estimated at $... The whole amount required for the usual year 1862 may therefore be stated at $... 68 18...

Provision is made for the interest on the existing public debt, in the sum of nearly $66, ..., already appropriated for the year 1862. To provide for the sums requisite, it is quite apparent that the duties on imports will not be adequate, and that the deficiencies must be supplied from loans. The Secretary is of opinion that $80,000 000 should be provided by taxation and $240 000,000 through loans. The different modes of taxation are limited by the Constitution to duties on imports, direct taxation, and internal duties on excises. The duties on imports constitute the chief form of indirect taxation, and indirect taxation includes capitation, taxes on real estate, and probably general taxes on personal property, including lists embracing all descriptions and valued by a uniform rule; while under the head of internal duties and excises may be included all taxes on consumption and on special descriptions of personal property, with reference to use rather than value. The principal advantages of a system of direct taxes are found in the sensibility with which they are felt and observed in the motives thence thence arising for economy and fidelity in the administration, and in the manifest equity of distributing the burdens in proportion to means.

The advantages of indirect taxation by duties on imports are found in the economy of collection and facility of payment, adaptability to the encouragement of industry, and above all in avoidance of federal interference with the finances of the States, whose main reliance must necessarily be upon levies on property. The present tariff on duties will not produce the revenue required by sound principles of finance under existing circumstances. The receipts of the last year are only $502 124,005,528 216, The sum needed now is greater than can be expected at this time from any tariff. With the revival of trade and industry the revenue will improve, even though the restoration of peace be delayed beyond present hope. The sources of revenue most promptly to be made available must be sought in articles now exempt from duties and of the articles lightly taxed as sugar, and of those wholly exports. Tea and coffee are mostly imports. The Secretary proposes a duty of 2½ cents per pound on brown sugar, 3 on clarified and 4 on candy, 6 per gallon for molasses, 4 per gallon of sour do, also a duty of 5 cts per pound on coffee and 15 on black tea, 25 on green. Expects from these duties an additional revenue of not less than 20,000,000 annually.

The Secretary says it will be necessary to have the sum of $20,000,000 for the current year at least, by direct taxes or from internal duties or excises, or from both, and leaves the question as to which shall be resorted to Congress. One eighth of one per cent advalorem on the whole real and personal property of the country would produce $20,128,677. A rate of one fifth of one per cent on the same in the States not under insurrection would produce $21 8000,000 and three tenths of one per cent on real property alone in these States would produce nearly $23 000,000, either being in excess of the sum required.

CINCINNATI, 5th

The 16th and 17th regiments left yesterday for Virginia. The 13th Indiana regiment left Indianapolis last night, via Belair. The 14th Indiana regiment left Indianapolis at noon to day, via Belair. One company of cavalry armed with carbines and Colt's revolvers was to leave Indianapolis this P. M., via Cincinnati. Two Kentucky regiments with the 5th and 12th Ohio, will leave Camp Dennison tomorrow or Monday for Virginia.

The 4th was celebrated with great enthusiasm in this city. Two regiments of the Home Guards paraded.

Special despatch to the World

WASHINGTON, July 2

THE ADVANCE TO FAIRFAX

The Second Maine Regiment now occupy the most advanced position. They encamped early this morning at Falls Church, being one mile nearer Fairfax Court House than any other regiment. The First, Second and Third Connecticut regiments, and the Third Maine Regiment are encamped in the immediate vicinity.

MAJOR GENERAL FREMONT

Major General Fremont had a long interview with the President last night, and will at once leave Washington to take command of the great western movement.

From the Tribune's Despatches

WASHINGTON, July 2d

GEN SCOTT TO TAKE THE FIELD

Should a battle take place in this vicinity Gen Scott has announced that he shall, in person, direct operations.

THE DEFENCES OF MANASSAS JUNCTION

An Englishman who arrived here recently from Manassas Junction, says that the fortifications there are very weak, and is confident that the rebels will retreat when closely pressed.

THE DEFENSES NEAR WASHINGTON

Army officers regard the newly erected forts on the Potomac and at Alexandria as permanent works, built quite as much with a view to future as to present needs and likely to be garrisoned hereafter like other fortified posts.

LENGTH OF THE SESSION

A resolution will probably be introduced early in the session of Congress, limiting its duration to two weeks.

FLOWERING OF THE CENTURY PLANT.—It seems that a Century Plant is to flower in the city of New York the present summer. The following notice of the fact we cut from the Bu... Commercial Advertiser:—"David Bidwell of New Orleans is the fortunate possessor of a Century Plant or American Aloe, which is ... to bloom in July or August next. Its ... spire has already attained an altitude of twenty feet and it progresses in height from three to six inches a day. It is expected that the blossom will be larger than was ever yet ... The plant left New Orleans for New York on the 20th of April and will be exhibited in that city.— We glean these facts from a circular kindly placed before us by our fellow townsman, Vincent Bidwell, Esq.

THE TONE OF FEELING AT WASHINGTON. The correspondent of the World writes as follows under date of July 2:

It is evident, from the general force that if the extra session shall be prolonged, the delay will not occur through deliberation over any craven compromise measures. If any such are introduced short shrift will be given them. Nor do I believe that there has been any longer of the contrary, this time the people and their representatives are spontaneously in earnest.

Questions of taxation, tariff, and other means for developing the sinews of war, may involve a natural and judicial debate. There are different answers made to the questions, "How shall the government requisitions be met?" But to the questions, "Shall they not be met to the utter most farthing?" "Shall not the rebellion be crushed in scorn of compromise?" the response "Yes, so help us God!" is heard from Congressmen of every clique and party division.

Little occasion has been afforded Washington correspondents. But now, between the Conscript Fathers and the Praetorian Guard, we shall have enough to demand our entire energies, especially if the cannon of the army sound a majestic accompaniment to the daily utterances of the august national council.

This may be the case. For, both in Washington and across the river, there are hourly audible those muffled reverberations which forebode a rising of the current, a movement of the ice which has seemed to lock operations and a compact, overpowering onset of our central masses. The urgent orders for the instant completion and delivery of the new army wagons, the swift migration of regiments to the Virginia shore, the restriction as to baggage just imposed upon their quartermasters—even the officers being limited to what they can carry in haversacks and holsters, the advance of large reinforcements to our outposts, with instructions to be ready for marching at an hour's notice, the new regulations as to passes, the inpouring, more than all of serried columns from the North, the precautions taken in rebellious Baltimore—all these signs affirm that the impatient loyalty of the people is soon to be gratified, and compensation made to our soldiery for the patience with which they have endured the petty disgrace and harassments incident to their continued inaction while encamped on hostile soil.

CLOTHING.

GENTLEMEN

Having noticed for years the fortunes of Tailors doing a credit business and having myself proved that system to be utterly wrong for the Retail Tailoring business, I feel compelled to adopt the CASH SYSTEM. It is better for the customer who expects to *pay* for his garments as the amount lost by bad debts, under the credit system is divided between the patrons and the patronized, as the former receive it by paying as much as 20 per cent. less for their garments, and the latter is saved from bankruptcy. Consequently I would invite all Cash paying customers to examine the Stock of Goods now on hand and see if the prices are not 20 per cent less than at any other Clothing House in the city. The Cutting Department is under the charge of

Mr. J. H. LARKIN,

favorably known in New York and Boston as one of the Best Artists in the Art of Cutting

A FRIEND IN NEED. TRY IT.

DR. SWEET'S INFALLIBLE LINIMENT is prepared from the recipe of Dr. Stephen Sweet, of Connecticut, the great bone setter, and has been used in his practice for the last twenty years with the most astonishing success. As an external remedy it is without a rival and will alleviate pain more speedily than any other preparation. For all Rheumatic and Nervous Disorders it is truly infallible, and as a curative for Sores, Wounds, Sprains, Bruises, &c., its soothing, healing and powerful strengthening properties excite the just wonder and astonishment of all who have ever given it a trial. Over four hundred certificates of remarkable cures performed by it within the last two years, attest the fact. See advertisement. eowd&w

TESTIMONIALS

DR. J. K. LINCOLN.—Though we have not the pleasure of a personal acquaintance with the gentleman, yet we have reason to believe that he is a most skillful practitioner of the dental art. At least, he has made an old face in our house look young again and has fitted by art a pair of jaws to mastic ate the food again which dame nature thought to deprive of this privilege a little too soon. We think the work and composition of the two full sets of teeth he has inserted cannot be excelled any where. We regard his presence in our city as an acquisition—not only as an accomplished dentist, but as a gentleman of good public talents and of an excellent private character.
REV. W. A. DREW in the *Rural Intelligencer*

Dear Sir.—While Dr. Lincoln resided here I had frequent occasion for myself and family for his professional services. He gave entire satisfaction. I can cheerfully recommend him to those needing his aid. Very truly yours

AYER'S Sarsaparilla

FOR PURIFYING THE BLOOD.

And for the speedy cure of the following complaints:

Scrofula and Scrofulous Affections, such as Tumors, Ulcers, Sores, Eruptions, Pimples, Pustules, Blotches, Boils, Blains, and all Skin Diseases.

OAKLAND, Ind., 6th June, 1859.

J. C. AYER & Co. Gents: I feel it my duty to acknowledge what your Sarsaparilla has done for me. Having inherited a Scrofulous infection, I have suffered from it in various ways for years. Sometimes it burst out in Ulcers on my hands and arms; sometimes it turned inward and distressed me at the stomach. Two years ago it broke out on my head and covered my scalp and ears with one sore, which was painful and loathsome beyond description. I tried many medicines and several physicians, but without much relief from any thing. In fact, the disorder grew worse. At length I was rejoiced to read in the Gospel Messenger that you had prepared an alterative (Sarsaparilla), for I knew from your reputation that any thing you made must be good. I sent to Cincinnati and got it, and used it till it cured me. I took it, as you advise, in small doses of a teaspoonful over a month, and used almost three bottles. New and healthy skin soon began to form under the scab, which after a while fell off. My skin is now clear, and I know by my feelings that the disease has gone from my system. You can well believe that I feel what I am saying, when I tell you that I hold you to be one of the apostles of the age, and I remain ever gratefully,

Yours,
ALFRED B TALLEY.

St. Anthony's Fire, Rose or Erysipelas, Tetter and Salt Rheum, Scald Head, Ringworm, Sore Eyes, Dropsy.

Dr. Robert M. Preble writes from Salem, N. Y., 12th Sept., 1859, that he has cured an inveterate case of *Dropsy*, which threatened to terminate fatally, by the persevering use of our Sarsaparilla, and also a dangerous *Malignant Erysipelas* by large doses of the same; says he cures the common *Eruptions* by it constantly.

Bronchocele, Goitre or Swelled Neck.

Zebulon Sloan of Prospect, Texas, writes: "Three bottles of your Sarsaparilla cured me from a *Goitre*—a hideous swelling on the neck, which I had suffered from over two years."

Leucorrhœa or Whites, Ovarian Tumor, Uterine Ulceration, Female Diseases.

Dr. J. B. S. Channing, of New York City, writes, "I most cheerfully comply with the request of your agent in saying I have found your Sarsaparilla a most excellent alterative in the numerous complaints for which we employ such a remedy, but especially in *Female Diseases* of the Scrofulous diathesis. I have cured many inveterate cases of [illegible] by it, and some where the complaint was caused by ulceration of the uterus. The ulceration itself was soon cured. Nothing within my knowledge equals it for these female derangements."

Edward S. Marrow, of Newbury, Ala., writes, "A dangerous *ovarian tumor* on one of the females in my family, which had defied all the remedies we could employ, has at length been completely cured by your Extract of Sarsaparilla. Our physician thought nothing but extirpation could afford relief, but he advised the trial of your Sarsaparilla as the last resort before cutting, and it proved effectual. After taking your remedy eight weeks no symptom of the disease remains."

Syphilis and Mercurial Disease.

NEW ORLEANS, 25th August, 1859.

Dr. J. C. AYER: Sir, I cheerfully comply with the request of your agent, and report to you some of the effects I have realized with your Sarsaparilla.

I have cured with it, in my practice, most of the complaints for which it is recommended, and have found its effects truly wonderful in the cure of *Venereal and Mercurial Disease*. One of my patients had Syphilitic ulcers in his throat, which were consuming his palate and the top of his mouth. Your Sarsaparilla, steadily taken, cured him in five weeks. Another was attacked by secondary symptoms in his nose, and the ulceration had eaten away a considerable part of it, so that I believe the disorder would soon reach his brain and kill him. But it yielded to my administration of your Sarsaparilla; the ulcers healed, and he is well again, not of course without some disfiguration to his face. A woman who had been treated for the same disorder by mercury was suffering from this poison in her bones. They had become so sensitive to the weather that on a damp day she suffered excruciating pain in her joints and bones. She, too, was cured entirely by your Sarsaparilla in a few weeks. I know from its formula, which your agent gave me, that this Preparation from your laboratory must be a great remedy; consequently, these truly remarkable results with it have not surprised me.

Fraternally yours, G. V. LARIMER, M. D.

Rheumatism, Gout, Liver Complaint.

INDEPENDENCE, Preston Co., Va., 6th July, 1859.

Dr. J. C. AYER: Sir, I have been afflicted with a painful chronic *Rheumatism* for a long time, which baffled the skill of physicians, and stuck to me in spite of all the remedies I could find, until I tried your Sarsaparilla. One bottle cured me in two weeks, and restored my general health so much that I am far better than before I was attacked. I think it a wonderful medicine. J. FREAM.

Jules Y. Getchell, of St. Louis, writes: "I have been afflicted for years with an affection of the *Liver*, which destroyed my health. I tried every thing, and every thing failed to relieve me; and I have been a broken-down man for some years from no other cause than *derangement of the Liver*. My beloved pastor, the Rev. Mr. Espy, advised me to try your Sarsaparilla, because he said he knew you, and any thing you made was worth trying. By the blessing of God it has cured me, and has so purified my blood as to make a new man of me. I feel young again. The best that can be said of you is not half good enough."

Schirrus, Cancer Tumors, Enlargement, Ulceration, Caries and Exfoliation of the Bones.

A great variety of cases have been reported to us where cures of these formidable complaints have resulted from the use of this remedy, but our space here will not admit them. Some of them may be found in our American Almanac, which the agents below named are pleased to furnish gratis to all who call for them.

Dyspepsia, Heart Disease, Fits, Epilepsy, Melancholy, Neuralgia.

Many remarkable cures of these affections have been made by the alterative power of this medicine. It stimulates the vital functions into vigorous action, and thus overcomes disorders which would be supposed beyond its reach. Such a remedy has long been required by the necessities of the people, and we are confident that this will do for them all that medicine can do.

Ayer's Cherry Pectoral,

FOR THE RAPID CURE OF

Coughs, Colds, Influenza, Hoarseness, Croup, Bronchitis, Incipient Consumption, and for the Relief of Consumptive Patients in advanced Stages of the Disease.

This is a remedy so universally known to surpass any other for the cure of throat and lung complaints, that it is useless here to publish the evidence of its virtues. Its unrivalled excellence for coughs and colds, and its truly wonderful cures of pulmonary disease, have made it known throughout the civilized nations of the earth. Few are the communities, or even families, among them who have not some personal experience of its effects—some living trophy in their midst of its victory over the subtle and dangerous disorders of the throat and lungs. As all know the dreadful fatality of these disorders, and as they know, too, the effects of this remedy, we need not do more than to assure them that it has now all the virtues that it did have when making the cures which have won so strongly upon the confidence of mankind.

ATWOOD'S Quinine Tonic BITTERS,

The Best Aromatic Tonic ever offered to the Public.

Recommended by the Faculty

For its Superior Medicinal Qualities!

THIS elegant Compound which has secured the confidence and endorsement of most of the leading Physicians of New England, is a palatable and efficient form of *Quinine* containing all the peculiar virtues of PERUVIAN BARK, carefully combined with various *tonics* and *stomachics*, and cannot fail to meet the wants of the debilitated.

It is a mild *tonic* to the stomach, increasing the appetite, assisting digestion, pre-eminently good in dyspepsia, strengthening and invigorating to the digestive and nervous systems after prostrating diseases, and in fever and ague, or kindred complaints its aid is invaluable.

For diarrhœa, dysentery and cholera morbus, the public may rest assured there is nor can be any better general remedy.

One of the very best physicians in Boston has said *"that it is the very best preparation of Bitters that has ever been offered to the public."*

Put up in half pint as well as quart bottles, in order that all may convince themselves of its superior merits.

PERUVIAN SYRUP,

OR PROTECTED SOLUTION OF PROTOXIDE OF IRON COMBINED.

This well known Remedy has been used extensively and with great success for

DYSPEPSIA,

Or Impaired and Imperfect Digestion;

FOR THE CONSEQUENT

DETERIORATION OF THE BLOOD;

AND FOR THE FOLLOWING

FORMS OF DISEASE,

Most of which originate in

DYSPEPSIA:

LIVER COMPLAINT, DROPSY, NEURALGIA and NERVOUS AFFECTIONS, LOSS OF APPETITE, HEADACHE, LANGUOR and DEPRESSION of SPIRITS, CARBUNCLES and BOILS, PILES, SCURVY, AFFECTIONS OF THE SKIN, CONSUMPTIVE TENDENCIES, BRONCHITIS, DISEASES PECULIAR TO FEMALES, & ALL COMPLAINTS ACCOMPANIED BY GENERAL DEBILITY, AND REQUIRING

A TONIC AND ALTERATIVE MEDICINE.

Note.—The failure of IRON as a remedy for *Dyspepsia*, a bad state of the blood, and the numerous diseases caused thereby, has arisen from the want of such a preparation of Iron as shall enter the stomach in a PROTOXIDE state, and assimilate at once with the blood. This want the PERUVIAN SYRUP supplies, and it does so in the only form in which it is possible for Iron to enter the circulation. For this reason the PERUVIAN SYRUP often radically cures diseases in which other preparations of Iron and other medicines have been found to be of no avail.

Certificate of A. A. HAYES, M. D., of Boston.

It is well known that the medicinal effects of Protoxide of Iron are lost by even a very brief exposure to air, and that to maintain a solution of Protoxide of Iron, without further oxidation, has been deemed impossible.

In the PERUVIAN SYRUP this desirable point is attained by COMBINATION IN A WAY BEFORE UNKNOWN; and this solution may replace all the proto carbonates, citrates and tartrates of the Materia Medica.

Certificate of Jas. R. Chilton, M. D., of N. York.

[illegible]

AN equal and normal circulation of the blood is health. An abnormal, that is to say, an excessive or deficient circulation or stagnation of the blood, is disease. To illustrate—torpidity of the Liver is caused by stagnation of the blood in that organ; diseases of the Kidneys, Inflammation of the Lungs, Diseases of the Heart, &c., by the same cause, viz: Improper Circulation, and from the same cause spring all minor forms of disease. To discover a certain cure, then for these diseases, the first great enquiry necessarily is, What causes the blood to circulate?

For centuries it has been a matter of much study among scientific and medical men; and while many experiments have been made and much labor expended upon the enquiry, it has been left to this century among its other wonderful increase in knowledge, to make this grand discovery, also.

Acknowledging that life is the gift of the Creator, and that "in Him we live and move and have our being," we still venture the remark, that as the planets move in their spheres and all vegetable life is governed by certain absolute laws, so animal life is traceable to a fixed cause, which remove or destroy, and death, the certain effect, follows.

Analysis of the red corpuscles of the blood show them to be compounds of iron, sulphur and phosphorus.

The air we breathe, we know to contain a very large proportion of oxygen.

Oxygen brought in contact with a metal evolves or emits electricity.

Electricity brought in contact with a muscular fiber, causes it to contract.

These facts being indisputable, we have now the solution as to the motor or motive power of the heart. The oxygen in the air we breathe coming in contact with the iron corpuscles of the blood emits electricity, which coming in contact with the heart causes it to contract, and hence the power which expels the blood and sends it tingling through the remotest arteries. What then, are the causes of Consumption, Dropsy, Palsy, Paralysis, St. Vitus' Dance, Dyspepsia, Epilepsy, Fever and Ague, &c., a deficiency of the red corpuscles containing the iron, sulphur and phosphorus, which causes a deficiency of electricity, and consequently an abnormal circulation. The blood becomes watery, colds and bronchial complaints and prostration ensue—the sufferer becomes nervous, and subject to rheumatic pains and neuralgia—complaints of the liver and kidneys set in, in short, almost every type of disease but virulent fevers may be traced to this deficiency in the blood, of the corpuscles or red globules.

Old age causes a deficiency of corpuscles, and while we do not pretend to say that we have discovered the "elixir vitæ," we do say that life can be materially prolonged by the use of the

"Blood Food,"

which restores the red globules, and thus the normal circulation. Consumptives! Friends of consumptives! Sufferers from any organic disease! Unfortunates, who have by excess of the body or mind reduced the standard of the blood and diminished the red globules. Ladies suffering any of the distressing weaknesses female complaints, be persuaded the "Blood Food" can cure you. It has cured thousands in desperate cases where all hope has been given up. Do not reject it, do not throw away your only hope. The "Blood Food" is an unfailing remedy; give it a trial.

An elaborate treatise, carrying out and fully proving the theory advanced me to be correct, will be mailed to any interested party, on the receipt of two cent stamps. Blood Food is sold by all druggists, or where it cannot be had I will send 6 bottles, free of expense, for $1. Price, single bottle, $. It is put up in 8 oz. vials, in yellow wrappers—the old kind, in small bottles, in red wrappers having been done away with—and bears the fac simile signature of Church & Dupont upon the face of the wrapper. Beware of counterfeits and imitations.

W. E. Hagan & Co., Market street, St. Louis, Mo., Advertising Agent for Heimstreet's Hair Restorative.

Dear Sir—The Medicines you introduced into our city last winter are all having a great sale and giving in every case satisfaction. Mr. James Henderson, (one of our first citizens,) says, that "he has used all the Hair Dyes and Restoratives of the day, but has never met an article equal to HEIMSTREET'S INIMITABLE HAIR RESTORATIVE. That it far surpasses any preparation that he has ever tried for restoring the Hair of the bald and gray to its original luxuriance and beauty." You can write the proprietors, W. E. Hagan & Co., Troy, N. Y. that they have the cheapest and best Hair Restorative in our market and that it gives satisfaction in every case.

PROF. WOOD'S RESTORATIVE CORDIAL AND BLOOD RENOVATOR,

Is precisely what its name indicates, for while pleasant to the taste, it is revivifying, exhilirating and strengthening to the vital powers.—It also revivifies, reinstates and renews the blood in all its original purity, and thus restores and renders the system invulnerable to attacks of disease. It is the only preparation ever offered to the world in a popular form so as to be within the reach of all. So chemically and skillfully combined as to be the most powerful tonic, and yet so perfectly adapted as to act in perfect accordance with the laws of nature, and hence soothe the weakest stomach, and tone up the digestive organs, and allay all nervous and other irritation. It is also perfectly exhilirating in its effects, and yet it is never followed by lassitude or depression of spirits. It is composed entirely of vegetables, and those combined having powerful tonic and soothing properties, and consequently can never injure. Such a remedy has long been felt to be a desideratum in the medical world, both by the thoroughly skilled in medical science and also by all who have suffered by debility; for it needs no medical skill or knowledge even to see that debility follows all attacks of disease, and lays the unguarded system open to the attacks of many of the most dangerous diseases to which poor humanity is constantly liable. Such, for example, as the following: Consumption, Bronchitis, indigestion, dyspepsia, loss of appetite, faintness, nervous irritability, neuralgia, palpitation of the heart, melancholy, hypocondria, night sweats, languor, giddiness, and all that class of cases so fearfully fatal if unattended to in time, called *female weaknesses and irregularities*. Also, liver derangements or torpidity, and liver complaints, diseases of the kidneys, scalding or incontinence of the urine, or any general derangement of the urinary organs, pain in the back, side and between the shoulders, predisposition to slight colds, hacking and continued cough, emaciation, difficulty of breathing, and indeed we might enumerate many more still, but we have space only to say it will not only cure the debility following chills and fever, but prevent all attacks arising from Miasmatic influences, and cure the diseases at once, if already attacked. And as it acts directly and persistently upon the biliary system, arousing the liver to action, promoting in fact all the excretions and secretions of the system, it will infallibly prevent any deleterious consequences following upon change of climate and water, hence all travelers should have a bottle with them, and all should take a tablespoonful at least before eating. As it prevents costiveness, strengthens the digestive organs, it should be in the hands of all persons of sedentary habits—students, ministers, literary men. And all ladies not accustomed to much out-door exercise should always use it. If they will, they will find an agreeable, pleasant, and efficient remedy against those ills which rob them of their beauty; for beauty cannot exist without health, and health cannot exist while the above irregularities continue. Then again the cordial is a perfect mother's relief. Taken a month or two before the final trial, she will pass the dreadful period with perfect ease and safety. *There is no mistake about it, this cordial is all we claim for it. Mothers, try it!* And to you we appeal to detect the illness or decline, not only of your daughters, before it be too late, but also your sons and husbands, for while the former, from false delicacy, often goes down to a premature grave rather than let their condition be known in time, the latter are often so mixed up with the excitement of business that if it were not for you they too would travel in the same downward path, until too late to arrest their fatal fall. But the mother is always vigilant, and to you we confidently appeal, for we are sure your never failing affection will unerringly point you to Prof. Wood's Restorative Cordial and Blood Renovator as the remedy which should be always on hand in time of need. O. J. WOOD, Proprietor, 444 Broadway, New York, and 114 Market Street, St. Louis, Mo., and sold by all good Druggists.

A VOICE FROM THE WEST!

[COPIED FROM THE CLEVELAND PLAINDEALER.]

LARGE & UNIVERSAL,

IS THE DEMAND FOR

DR. S. O. RICHARDSON'S

SHERRY WINE BITTERS!

The Celebrated New England Remedy for HABITUAL CONSTIPATION, JAUNDICE, FEVER AND AGUE, GENERAL DEBILITY, AND ALL DISEASES ARISING FROM A DISORDERED STOMACH, LIVER OR BOWELS.

THEY are used and recommended by leading Physicians of the country, and all who try them pronounce them invaluable.

Dr. JAMES L. [illegible] writes from Navarre, Stark Co., O.: "The Bitters are praised by those suffering from indigestion, dyspepsia, and liver complaint."

E. S. DAVIS, Postmaster at Williamsport, Ohio, says: "They give great satisfaction. I used them myself, having taken a cold, become prostrate, and lost my appetite. It relieved me, and I can recommend it with great assurance of its merits."

Dr. WM. S. KERR, of Rogersville, Ind., writes us that they are the most valuable medicine offered.—He has recommended them with great success, and with them made several cures of palpitation of the heart and general debility.

THOMAS STANFORD, Esq., Bloomfield, Henry Co., Ind., writes us a long letter under date of May 1, in. He was much relieved, having been afflicted for three years with great nervous debility, palpitation of the heart of the most severe and prostrating character. "After using a few bottles I was completely restored, and am now in robust health."

GEORGE W. HUFFMAN says he was afflicted with rheumatism in all its various forms, for twenty years, and at the date of his letter he had been two years well. The Bitters effecting the cure when several physicians attending him could do him no good. He says, "for rheumatism, dyspepsia, liver complaint, kidney affection or dropsy, it is a specific certain remedy."

J. W. HUNT writes from Delphos, Allen Co., O., (a section where Fever and Ague prevails) that he most cheerfully recommends them as decided merit in all cases of Fever and Ague, Dyspepsia and General Debility.

D. K. GALLEHERS, M. D., writes from Van Wert, O., "I most respectfully recommend the Sherry Wine Bitters to the notice of dyspeptic persons, and all who require a stimulating medicine."

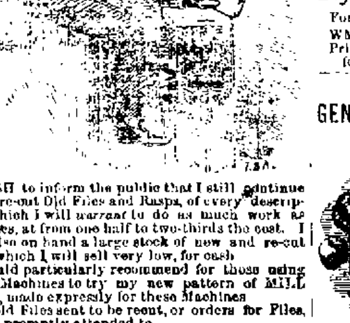
FILE CUTTING!



I WISH to inform the public that I still continue to re-cut Old Files and Rasps, of every description, which I will *warrant* to do as much work as new ones, at from one half to two-thirds the cost. I have also on hand a large stock of new and re-cut Files, which I will sell very low, for cash.

I would particularly recommend for those using Filing Machines to try my new pattern of MILL FILES, made expressly for these Machines.

All old Files sent to be recut, or orders for Files, will be promptly attended to.

GARDINER'S

Rheumatic and Neuralgia COMPOUND?

A certain, safe and permanent cure for Rheumatism, Neuralgia and Salt Rheum. It is a [illegible] remedy, driving out and entirely eradicating the disease, requiring no change in diet or business; it may be taken by children and persons of [illegible] delicate constitutions with perfect safety.

TESTIMONIALS.

"Gardiner's Rheumatic & Neuralgia Compound is the best medicine for the disease I ever saw." CHAS. A. SMITH, No. 1 Old State H[ouse], B[oston].

After suffering with Rheumatism twenty [illegible] and being confined to my bed seven weeks [illegible] spring, I was entirely cured by the use of [illegible] of Gardiner's Rheumatic & Neuralgia Compound. NORMAN T. AYRES, 77 Franklin st., [Boston].

Having been a constant sufferer from Neuralgia for eighteen months, and been driven [illegible] ing pain to the trial of numberless remedies without obtaining relief, I was induced to try Gardiner's Rheumatic and Neuralgia Compound. I have taken but one bottle and am entirely well. BAXTER, Dry Goods Dealer, No. 5 Appleton [illegible], Lowell, Mass.

I have been afflicted with Salt Rheum [illegible] for a long time, and suffered more [illegible] [illegible] Compound [illegible] one bottle of your Compound [illegible] that I feel myself entirely cured. [illegible] Post Office Boston, Mass.

"Gardiner's Rheumatic & Neuralgia Compound has entirely cured me of suffering [illegible] standing." W. E. HODGKINS, No. [illegible] Boston.

My son, ten years of age, has been for [illegible] a great sufferer from Salt Rheum, his [illegible] with sores and in constant pain [illegible] Compound cured him. J. W. HANDSON [illegible] Boston.

"Gardiner's Rheumatic & Neuralgia Compound has entirely cured me of Neuralgia [illegible]" [illegible] SON, Proprietor Pearl St. House, Boston.

One half a bottle of your Compound [illegible] severe attack of Neuralgia. [illegible] Pearl St. House, Boston.

I certify that my friend, [illegible] presented me with a bottle of [illegible] Compound, in 1858, when I was suffering [illegible] painful attack of Neuralgia [illegible] that it proved to [illegible] SMITH, Ex-Member of Congress, [illegible]

MRS. WINSLOW,

An experienced Nurse and Female Physician, presents to the attention of mothers, her

SOOTHING SYRUP,

FOR CHILDREN TEETHING,

which greatly facilitates the process of teething, by softening the gums, reducing all inflammation—will allay ALL PAIN and spasmodic action, and is

SURE TO REGULATE THE BOWELS.

Depend upon it, mothers, it will give rest to yourselves, and

Relief and Health to your Infants.

We have put up and sold this article for over ten years, and CAN SAY, IN CONFIDENCE AND TRUTH of it, what we have never been able to say of any other medicine—NEVER HAS IT FAILED, IN A SINGLE INSTANCE, TO EFFECT A CURE, when timely used. Never did we know an instance of dissatisfaction by any one who used it. On the contrary, all are delighted with its operations, and speak in terms of commendation of its magical effects and medical virtues. We speak in this matter "WHAT WE DO KNOW," after ten years' experience, AND PLEDGE OUR REPUTATION FOR THE FULFILLMENT OF WHAT WE HERE DECLARE. In almost every instance where the infant is suffering from pain and exhaustion, relief will be found in fifteen or twenty minutes after the syrup is administered.

This valuable preparation is the prescription of one of the most EXPERIENCED and SKILLFUL NURSES in New England, and has been used with NEVER FAILING SUCCESS in

THOUSANDS OF CASES.

It not only relieves the child from pain, but invigorates the stomach and bowels, corrects acidity, and gives tone and energy to the whole system. It will almost instantly relieve

Griping in the Bowels, and Wind Colic,

and overcome convulsions, which, if not speedily remedied, end in death. We believe it the BEST and SUREST REMEDY IN THE WORLD, in all cases of DYSENTERY and DIARRHŒA IN CHILDREN, whether it arises from teething or from any other cause. We would say to every mother who has a child suffering from any of the foregoing complaints—*Do not let your prejudices, nor the prejudices of others*, stand between you and your suffering child, and the relief that will be sure—yes, ABSOLUTELY SURE—to follow the use of this medicine, if timely used. Full directions for using will accompany each bottle. None genuine unless the fac simile of CURTIS & PERKINS, New York, is on the outside wrapper.

☞ Sold by Druggists throughout the world.
